

Automated Feedback Reply System using n8n + Gemini

What It Does:

- Takes customer feedback via a **Tally form**
- Sends it to **Gemini AI** for analysis
- Replies to the customer via email — **personalized** based on the sentiment

Nodes Used:

1. **Webhook Node** – Receives feedback (Name, Email, Message)
2. **HTTP Request Node** – Sends message to Gemini API with a custom prompt
3. **Email Node** – Sends back a reply generated by Gemini

Why Gemini over OpenAI?

-  100% Free via Makersuite
-  No credit card required
-  Works great for polite, context-aware replies

Try It Yourself:
